**What's the weather
like today?**

Weather

snowy

sunny

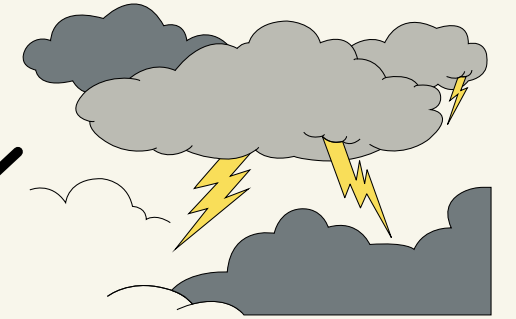

rainy

cloudy

stormy

foggy

The seasons of the year

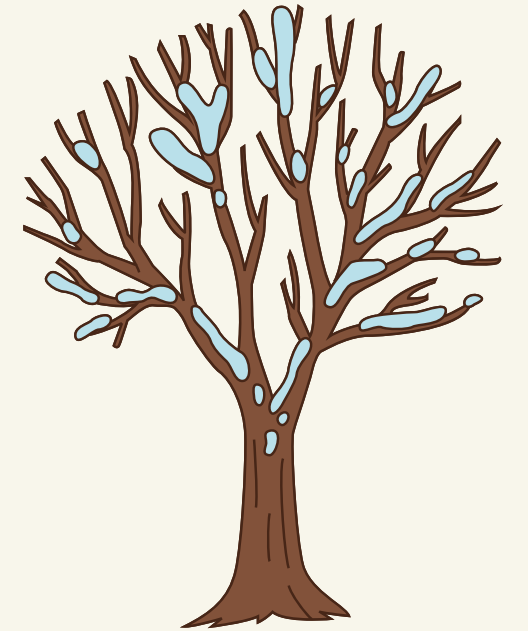

spring

summer

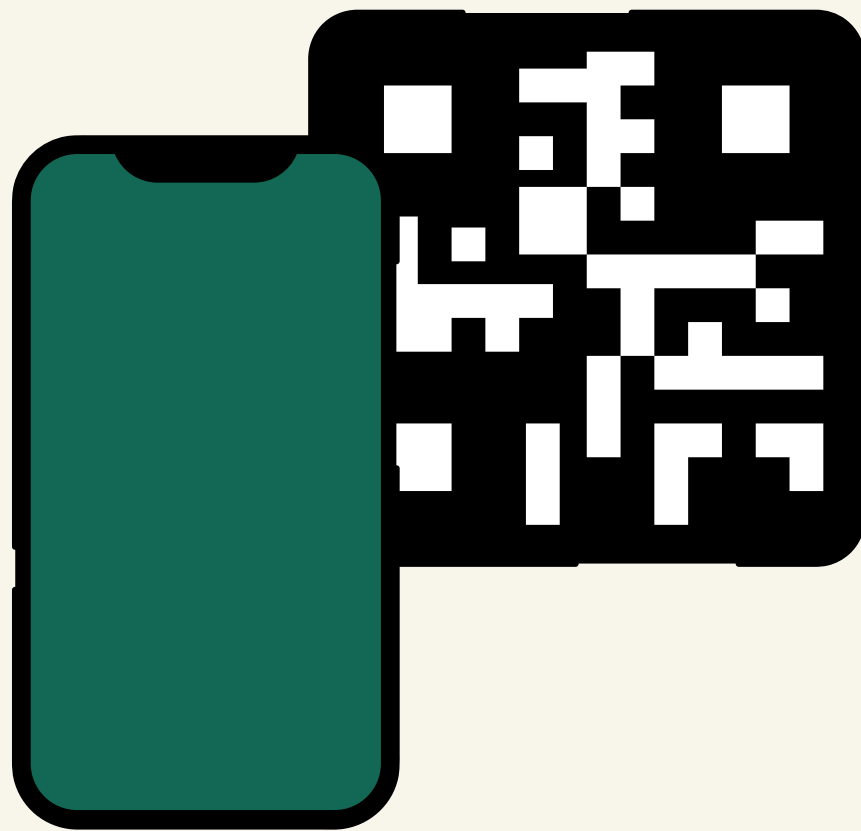

fall (autumn)

winter

Let's practice!

<https://wordwall.net/pt/resource/53500955/weather/the-weather>

Do you know how to make predictions about the weather?

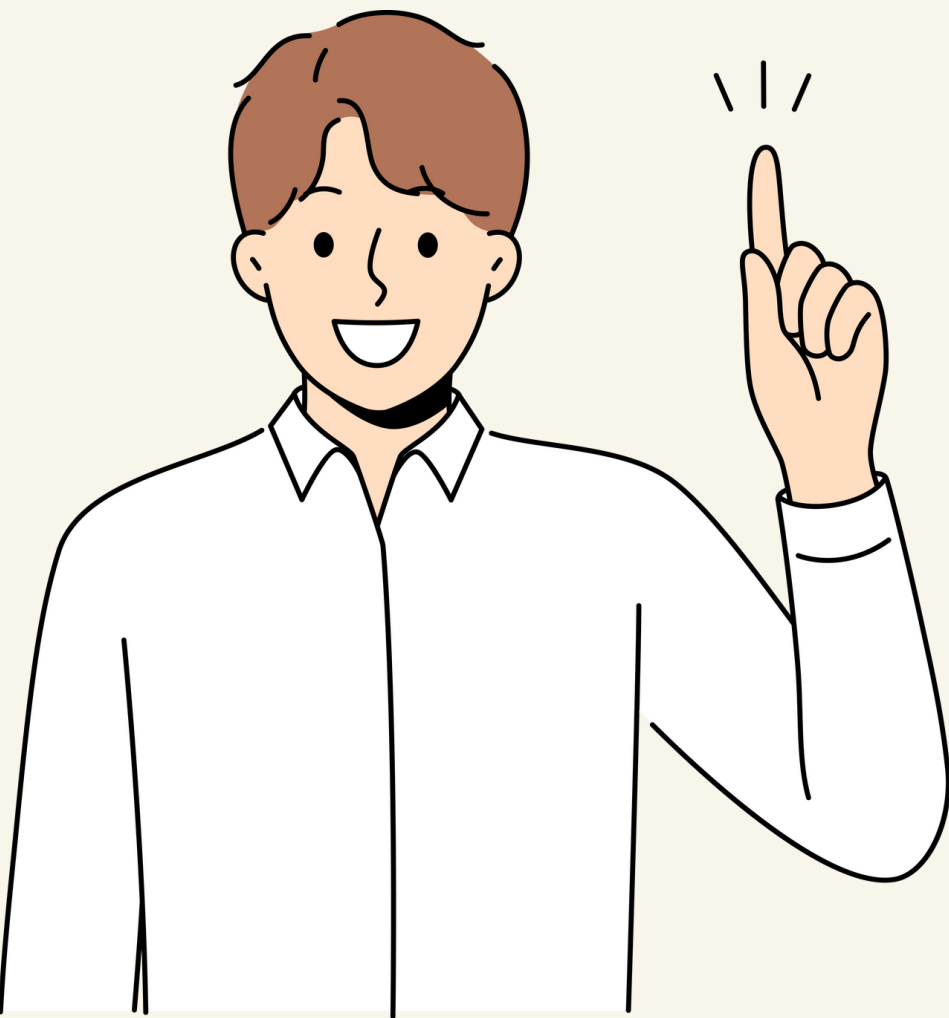

It **will** rain later.

It **isn't going to** be a hot summer.

It's **going to** be cloudy tomorrow according to the weather forecast.

I think it **will** be a sunny day today.

Are we going to have a snowy winter this year?

will

vs

be going to

predictions based on assumptions, intuitions,
or immediate observations

will

vs

evidence indicating that something will
happen in the near future

be going to

predictions based on assumptions, intuitions,
or immediate observations

will

Will it be windy at the beach
tomorrow?

It will snow in December.

vs

evidence indicating that something will
happen in the near future

be going to

Based on the dark clouds and
strong winds, it looks like it's
going to be a stormy night.

It's not going to be a foggy
morning.

Time to play Kahoot!

Let's play!
